Private Label Program Benefits

Fully Customized Design

Your customers and clients will never know that they're using Text Your Prospect's industry leading group text messaging platform. You supply us with logos, banners, and more and we'll build you a text messaging application that's all your own. Or we will design a skin just for you.

Set Your Own Pricing

When you partner with Text Your Prospects we treat you like a true partner - and that means you can price Credits, Keywords and Packages the way *you* want to. We don't require you to purchase Credits and Keywords when you start. Instead, when your clients and customers make purchases you simply earn the difference between our costs and your prices.

Fast & Easy Setup

When you're ready to become a Private Label Partner we can get you up and running in just a week. Our dedicated team of Private Label support specialists will guide you through every step of the process, from conception to creative to launch. If you're looking for a private label solution on a dedicated short code we'll walk you through the 6 - 8 week carrier provisioning process. Or you can use one of our shared short codes right away!

Automatic Customer Support & Marketing

We've built our application to do all of the heavy lifting. Customized welcome emails, automatic receipts, and infrequent activity reminders are just some of the ways that we help you support and upsell your clients and customers.
